

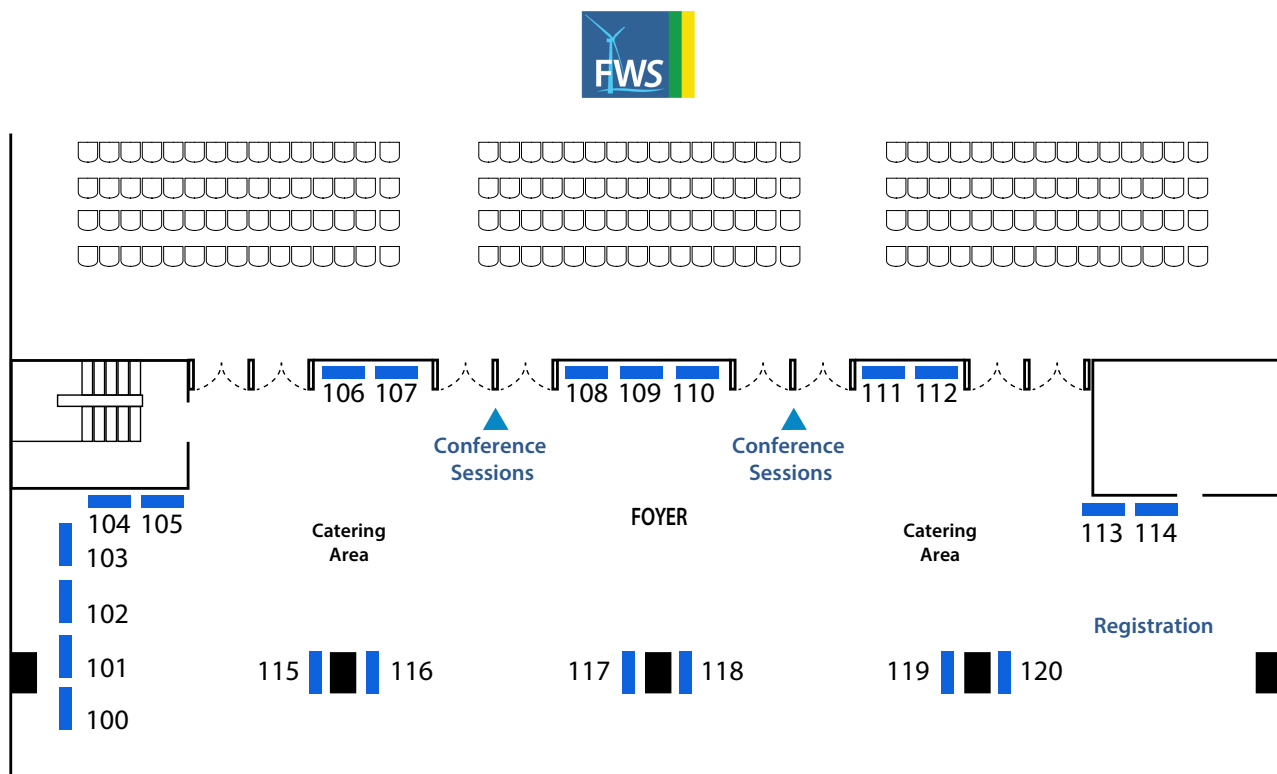

## Exhibition Opportunities

General interest in South America for developing Offshore Wind has recently emerged on two frontiers Brazil and Colombia with future activity projected in Uruguay, Argentina and Chile.

Quest Offshore, the co-founder /organizer of the inaugural OTC Brasil and many other energy related events is organizing FWS South America Offshore Wind 2023 in support of current developments. A two-day world class conference looking at early permitting, environmental licensing, early development needs and licensing procedures. Suitable technology selection and infrastructure requirements will be addressed to include floating wind development including that for decarbonizing Brazil's oil and gas production.

Opportunity for showcasing your services to the conference audience is available in the foyer through a limited number of TV Stand Exhibits in front of the conference session room where the network breaks will take place.

The TV stand exhibit package offers additional delegates at \$695. We value our sponsors and will provide you with excellent exposure and branding reaching audiences well in excess of 100K.
